

TRACKING LICE...

To keep head lice away for good, you need to find where they came from.

The source is most likely someone well-known to the family and is probably completely unaware that they have lice!

So, make a list of all people who have been in CLOSE (head to head) contact with the infected person.

CONTACT TRACING SHEET

Every member of the family will need to fill in one of these, even though many names will be duplicated.

All the people on the list will need to check themselves and their families for head lice.

Name

IN THE HOME:

Parents / Guardian

Brothers / Sisters

Other residents

RELATIVES:

Grandparents

Aunts / Uncles

Cousins

Nephews / Nieces

Other
